

Sai Erukala

Front-End Developer

Hyderabad, India | +91-7989672916 | sai.erukala1508@gmail.com | LinkedIn | Portfolio

Summary

Front-End Developer with 2.5+ years of experience building responsive single-page and server-rendered applications using React.js, Next.js, and modern JavaScript. Skilled in reusable component architectures, state management, Node.js and Express.js REST API integration, performance optimization, and Agile delivery.

Skills

React: React.js, Next.js, Redux Toolkit, React Router, Context API, React Hooks, Server-Side Rendering

Front-End: JavaScript (ES6+), TypeScript, HTML5, CSS3, Responsive Design

Backend & AI: Node.js, Express.js, REST APIs, Axios, OpenAI API (GPT)

Database: MySQL, PostgreSQL, MongoDB

UI & Tools: Material UI, Tailwind CSS, Jest, React Testing Library, Unit Testing, Git, GitHub, CI/CD

Experience

UX Crafts

Nov 2024 – Present

React Developer

Hyderabad, India

HRMS – Human Resource Management System

- Built the React.js and Tailwind CSS front end for Employee Management, Attendance, Leave, Team, Projects, and Help Desk modules used by 300+ employees.
- Developed Node.js, Express.js, and MySQL REST APIs for attendance, leave approvals, and help desk ticketing.
- Integrated OpenAI GPT APIs to build an AI-powered HR Assistant for conversational answers on leave, attendance, reimbursements, holidays, and company guidelines.
- Added validation, search, and filtering to reduce data-entry errors and improve usability across modules.
- Wrote Jest and React Testing Library tests for critical flows, helping catch regressions before production.

TG Agros ERP

- Developed Sales, Purchasing, and Inventory Management modules in React.js with Redux Toolkit and reusable Material UI components.
- Built Node.js and Express.js REST APIs with PostgreSQL, optimizing large data tables through pagination and lazy loading.
- Integrated the OpenAI API to develop inventory recommendations that analyzed stock and recent sales data, suggested reorder priorities, and highlighted potential shortages.
- Improved performance with route-based code splitting, lazy loading, and React.memo, cutting initial load time by around 30%.

Swechaa News Portal & E-Paper

- Developed a React.js, Node.js, Express.js, and PostgreSQL content dashboard to manage news articles, e-paper editions, and category-wise short news.
- Implemented secure CRUD operations, REST APIs, role-based content management, media uploads, and real-time content updates for the news portal.

Kwikkoder-IT Solutions

Oct 2023 – Nov 2024

React Developer

Hyderabad, India

Sri Lakshmi Kalamkari – E-Commerce Platform

- Built a server-rendered e-commerce storefront with Next.js, and Tailwind CSS, including Product Catalog, Cart, and Checkout modules supporting 500+ monthly orders.
- Built reusable React components and improved SEO and load performance with Next.js server-side rendering, achieving Lighthouse scores above 90.
- Integrated Node.js and PostgreSQL REST APIs for product catalog, search, and order management, with mobile-first layouts for checkout across devices.

Education

Full-Stack Web Development (MERN Stack) – NxtWave

2022 – 2023

B.Tech, Mechanical Engineering – Malla Reddy Engineering College, Hyderabad

2017 – 2021

Diploma, Mechanical Engineering – Jyothishmathi Institute of Technology, Karimnagar

2014 – 2017
